## **Biochemical Engineering MEng | Undergraduate prospectus ...**

Biochemical engineering translates life science discoveries into new products and sustainable manufacturing processes. You will learn the applied biology, maths and engineering thinking needed to produce biopharmaceuticals, make biofuels, manufacture vaccines or grow stem cells for therapy.

## **Integrated Process Model Applications Linking Bioprocess ...**

2 days ago · Maximizing the value of each available data point in bioprocess development is essential in order to reduce the time-to-market, lower the number of expensive wet-lab experiments, and maximize process understanding. Advanced in silico methods are increasingly being investigated to accomplish these goals. Within this contribution, we propose a novel integrated process model procedure to ...
