Eating is an ethical act. Wendell

Berry wrote, “Eating is an agricultural act” (Berry, 1990). With approximately 800 million people

suffering from food insecurity, one out of every three people burdened with some form of malnutrition, and

a saddled global food system, the
view that “eating is also an ethical

act” resonates well ().

Big data - Wikipedia

Big data is a field that treats ways to analyze, systematically extract

information from, or otherwise deal
with data sets that are too large or
complex to be dealt with by

traditional data-processing
application software. Data with many
fields (columns) offer greater

statistical power, while data with higher complexity (more attributes or columns) may lead to a higher false

Robotics (Stanford ...

30/4/2020 · Opacity and bias are central issues in what is now

sometimes called “data ethics” or “big data ethics” (Floridi and Taddeo 2016; Mittelstadt and Floridi 2016).

AI systems for automated decision support and “predictive analytics” raise “significant concerns about lack

of due process, accountability,
community engagement, and
auditing” (Whittaker et al. 2018:

18ff).

Errors, underlying themes ...

13/3/2018 · Some aspects of science,
taken at the broadest level, are

universal in empirical research.

These include collecting, analyzing, and reporting data. In each of these

aspects, errors can and do occur. In this work, we first discuss the importance of focusing on statistical

and data errors to continually
improve the practice of science. We

then describe underlying themes of ...
