6/1/2022 · The present study investigated the volatile organic compounds (VOCs) in 14 Egyptian mango specimens collected from three different regions and of different cultivars (cvs). VOCs were extracted via solid-phase microextraction, followed by gas chromatography–mass spectrometry analysis. The results obtained for sesquiterpene hydrocarbons' qualitative ...

Bemisia tabaci (tobacco whitefly) -

CABI.org

The genus *Bemisia* contains 37 species and is thought to have originated from Asia (Mound and Halsey, 1978). *Bemisia tabaci*, being possibly of Indian origin (Fishpool and Burban, 1994), was described under numerous names before its morphological variability was recognised. For full synonyms, see Mound and Halsey (1978). Originally, three distinct groups of *B. tabaci* were ...

22/9/2017 · The findings showed that water extracts of *Lantana camara* L., *Saraca asoca* L., *Acacia nilotica* L., and *Justicia zeylanica* L. caused the highest growth inhibition of all tested bacteria. The antimicrobial activity was the highest, ranging between 9.375 and 37.5 µg/mL and 75.0 to 300.0 µg/mL against both bacterial and fungal pathogens.

Mimosa pudica (sensitive plant) - CABI.org

Mimosa comes from the Greek word

mimikos, which means 'to mimic' or 'counterfeit', through the Latin word *mimus* and suffix *-osa*, which means 'abounding in', and refers to the many flowers that appear to be a single flower (Parsons and Cuthbertson, 1992). The specific name *pudica* is from the Latin word that means 'modest' or 'bashful' (Holm et al., 1977).

List of plants used in herbalism - Wikipedia

This is an alphabetical list of plants used in herbalism.. The ability to

synthesize a wide variety of chemical compounds that are possibly used to perform important biological functions, and to defend against attack from predators such as insects, fungi, and herbivorous mammals is called herbal medicine.
