Nursing - Wikipedia

Nursing is a profession within the health care sector focused on the care of individuals, families, and

communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be

differentiated from other health care providers by their approach to patient care, training, and scope of

practice. Nurses practice in many specialties with differing levels of

prescription ...

Psychosocial interventions for

dementia: from evidence to ...

A Cochrane review of eight trials
(Reference Forbes, Culum and

Lischka Forbes 2009) revealed that there was inadequate evidence of the effectiveness of light therapy in

managing cognition, sleep, function,
behaviour or psychiatric disturbances
associated with dementia, and that

further studies of high
methodological quality and further

research are required.
